36)

Unless the Town Hall Committee are sure of their financial ability to provide Rs 50,000, the proposed design cannot be recommended.

There are serious defects in the design-

- (1) Rooms in one of the side verandahs of the Hall and in rear of it, block up light and interfere with its ventilation.
- (2) Side elevation is ugly for want of verandah in first floor on sides.
- (3) There is a dreadful waste of space in the Hall 35' high up to the bottom of truss. A first floor may easily be arranged here at a height of 16 feet from ground floor unless it is - - intended to run a line of galleries all round the Hall.
- (4) When thus improved, the ground floor rooms may be set apart for lectures, dramatic performances, and the upper rooms may be used as Municipal offices.
- (5) Mr. Lakshminarasappa's design is a beautiful one. It may form the nucleus and four new rooms may easily be added at the four - - corners as shown in red, if found necessary. The new plan is a very ambitious one for Tumkur.

H. J. J. J. J.

37) If approved a copy of the note of the
Chief Eng may be sent for the con-
sideration of the Mt. Council Fund
for orders with draft

Rs 61

8/6/14 38) The Dy Comm^r states that arrangements
have been made to build the work as per
designs of the Dy Eng^r, and it has been
decided to call for tenders at once

39 Subscriptions amounting to Rs 15,000
have been collected, and with the Mt^l
Contribution of Rs 6,000, ~~there~~ there will
be Rs 21,000 against Rs 29,892/- required
as per that design

40 Sub^d for order, ^{whether it is approved} in the light of the
Chief Engineer's remarks

41 It will probably be best to
ask Mr S. K. - Lakshminarasappa to
meet the Town Mtn Council
and Town Hall Committee and prepare
a design & plan costing not more than
Rs 25,000, ~~in that case~~ in that case —

~~The sum of~~ Subscriptions amounting
to Rs 4,000 will have yet to be collected
more funds will be necessary if a park
is to be laid out.

42 It is probably not out of place

General and Revenue
Secretariat

File No. Vol 297 of 1912

Serial
No

to submit that the Tambora finances are not quite so satisfactory as the figures show. The opening balance is, of course, a good thing, but it is not generally drawn upon ~~for~~ except for directly useful works. It is possible to argue that it is bad ~~policy~~ financial ~~to~~ administration to sanction Rs 6000/- for a Town Hall, when a Scheme of water supply has had to be kept by for want of funds.

40) But the ~~the~~ ^{the} Councils of the front is to be finally sanctioned.

Des 4)

Des
9/6

44) It would not do to throw a damper on the action of the towns people, when they have come forward with liberal contributions to construct a Town Hall.

The water supply scheme being a white-
elephant, the municipality need not afford to finance it. It does not therefore preclude it from undertaking less costly & equally useful projects.

But II for favouring opinion

Subd.

45) The financial condition of the Municipality has been explained at page 10 of the notes in M^t File 398-13. It will be seen therefrom that the Municipality has been accumulating funds with a view to carry out the water supply scheme. If the adm^{re} Dep^y consider that it is more necessary to have a Town Hall than a water supply scheme which is impracticable at present, there will be no objection to the Municipality from Rs 6000 on account of the Town Hall. If on the other hand, it is considered that the water-supply is more necessary than a town hall, the Municipality ought to save as much as it can and reserve it for carrying on the water-supply scheme. In this case it is not advisable to sanction Rs 6000 from the funds of the Municipality.

A. N. S.

17/6/12

45) I think water supply is the crying evil of Meerut & the first need. The town hall can be put forward. Not therefore to undertake to pay any subscription from Rs 6000 to the town hall.

- vide para 21 (3), on page 6 of the
Memorandum.

76. In the estimate for 1912-13
the proposed Municipal
26-2-4715 paise contribution will
be about 28% of the total.

~~35~~ outlay on the Town Hall
78 The Estimate finally approved is
for Rs 19,650, but the D.C. anticipates
that a lump sum provision of about
1000 Rs should be made for contingencies.
So that in round figures the total expenditure
will be 21,000 Rs.

79 Out of the Rs 14,952 or
Rs 15000 in round figures have been
collected. The D.C. thinks it is not possible
to collect anything more on account of the
unfavourable seasonal conditions.

80 The balance required is Rs 6000
which it is proposed should be contributed by
the Municipality.

81 At para 51, the Second Member
has been pleased to observe that the Municipal
Contribution may be raised to 25%
especially as private subscriptions are
expected to bring in 75%. This would seem
to indicate that 1/4 of the total cost was to

D. O. No. 2757

BALLABROOIE
HIGH GROUND
BANGALORE

16th February 1915

Dear Mr Campbell,

Mr K R Srinivasiengar, Deputy Commissioner of Tumkur, told me that the people of Tumkur are anxious that His Highness may be pleased to lay the foundation stone of the Tumkur Town Hall for which they have collected a sum of nearly Rs 20,000. I hope His Highness will be pleased to accept the invitation and ~~fix a date and hour~~ ^{from the} for the opening ceremony according to His Highness' own convenience.

A reply conveying His Highness' pleasure in the matter will extremely oblige,

Wm
Yours sincerely,
1

Office of the
 President of the Municipalities,
 Tumkur District,
 Dated Tumkur, 27th February 1913.

From

C.S. Balasundaram Iyer Esqr., B.A.,
 President of the Municipalities,
 Tumkur District.

To

K. R. Sreenivasa Iyengar Esqr., M.A.,
 Offg: Secretary to the Government of
 His Highness the Maharaja of Mysore,
 General and Revenue Departments,
 Bangalore.

Sir,

I have the honor to state that the building where the Municipal Office of the Tumkur Town is located at present, is rickety and not spacious enough to accommodate the establishment of the Municipal Office or to meet the requirements of people visiting the Office on business. A portion of the same building is used as Octroi Warehouse and this ^{is} found to be too small to store the bundles of cloth brought to Municipal Office for the levy of Octroi. Consequently, a large number of bundles have to be kept outside the building subject to exposure to Sun and Rain and risk of theft and the Merchants very reasonably complain of this want of accommodation. A spacious building which would meet all reasonable requirements is therefore very necessary and the cost of constructing such a building may amount to 7 or 8 thousand Rupees. You are no doubt aware of a proposal to build in the Town a public hall called the Coronation Durbar Hall and open a Park in connection therewith in commemoration of the Delhi Durbar of 1911. In connection with this scheme, it has been suggested that the Municipality might make

From

The President of the

Despatched 28th } February 1913

Received

General No.

No. 397

Enclosure No. one

Request sanction
of Government to
locate the Municipality
office of Munkur in
the Coronation Hall
to be constructed, the
cost of which, Rs
Rs 6000/- will be
borne by the Municipality

a grant towards the construction and at the same ^{time} secure ^maccommodation in the building for its Offices, Meetings and other purposes. This suggestion has met with acceptance and the Municipal Council has proposed to contribute a sum of Rupees 6000/- towards the construction of the Coronation Hall, on the understanding that sufficient accommodation would be provided in the building for the location of the Municipal Office and the Octroi Warehouse. A copy of the Resolution of the Council is herewith submitted.

The Municipality can conveniently bear this expenditure as its estimated closing balance is Rupees 18580/- and this amount is far in excess of the minimum balance. In these circumstances, I request that sanction of Government ^{may} be kindly accorded early to the above proposal, so that necessary provision may be made in the budget for 1913-14.

I have the honor to be,

Sir,

Your most obedient servant,

S. Balasubrahmanyam

SERIAL No. 3

T o

K. R. Sreenivasa Iyengar Esqr., M.A.,
Offg: Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments,
Bangalore.

S i r ,

With reference to para 2 of your letter No. 7889/M1: 297-12-2 dated the 3rd April 1913, calling for particulars in regard to the Coronation Hall proposed to be constructed in this Town, I have the honor to report that the estimated cost of the building comes up to Rupees 20,000/- including therein an amount of Rupees 1900/- on account of establishment charges and tools and plant. In a resolution (No. 2) of their meeting held on the 4th May 1913, the Committee have resolved to approach Government with a request that the P.W. D., may be ordered by Government to supervise the construction of the building free of cost. An extract from the Proceedings of the meeting, is sent herewith for reference, and should Government be pleased to accede to this request, the total cost will be reduced by nearly Rupees 2,000/- This amount, together with the Rupees 6,000/- which the Municipal Council of Tumkur propose to contribute towards the construction of the building makes up a total of Rupees 8,000/-; and it is expected that the remaining Rupees 12,000/- can be raised

by

28

by subscriptions in this District.

2. Subscriptions to the extent of Rupees 3769-8-6 have already been collected, a little over Rupees 2,000/- has also been promised, and the Committee are confident that the whole of the required amount can be raised with some effort.

3. Before, however, requesting the public to subscribe for the purpose, it is the Committee's desire to start the construction, so that people may see for themselves that the building towards the construction of which they are required to contribute their mite has already been commenced. (Vide the 3rd resolution of the Proceedings of the meeting held on the 4th May 1913, extract enclosed).

4. A copy of the Sketch of the proposed building is sent herewith and I may here state that while the Committee Members are all agreed on the main points, there are some matters of minor detail, which require to be settled when the Executive Engineer finds it convenient to be present at a meeting to be convened in the course of next month.

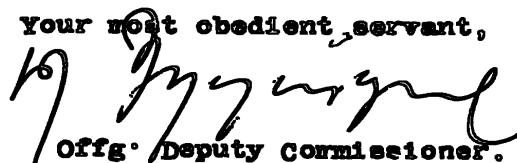

5. In these circumstances, I request that early orders of Government may kindly be passed for the commencement of the building and for the Executive Engineer making necessary arrangements for supervising the construction of the building free of cost.

The Committee Members are all of the opinion that the work should be started and pushed forward towards completion early and it will be an advantage to sanction the commencement at a time when they are enthusiastic in the matter.

I have the honor to be,

Sir,

Your most obedient servant,

Offg. Deputy Commissioner.

D. M. Narasimha Rao, Esq., B.A., B.L.,

Offr. Secretary to Government of His Highness the

Waharaja of Mysore, General and Revenue Departments.

Sir,

With reference to your letter no 7881/ML 297-12 dated the 14th February 1914 anent the construction of a Public Hall in the Tumkur Town, I have the honour to forward herewith for the approval of Government a fresh plan prepared by the Executive Engineer, Tumkur Division. I would state that the design prepared by Mr S H Lakshminarasappa, Assistant Engineer which was sent here for consideration of the Municipal Council was not accepted by the Municipal Council as it does not provide sufficient number of rooms to locate the Municipal Office, which was the main object of the Municipal Council in giving such a large amount of contribution towards the construction of the building. A copy of the Municipal Council's resolution on the subject is enclosed.

The building as designed by the Executive Engineer affords sufficient accommodation both for the Municipal Office and other public purposes. It was at first proposed to have an upper floor also and the building was designed accordingly. The estimated cost of the building is Rs 42786/- with an upper floor and Rs 27692 without it. For want of funds on hand, the Municipal Council and the Committee have now decided to have only the ground floor for the present. The construction of the upper floor being eventually taken up when sufficient funds are collected. A tracing of the ground plan is prepared making the necessary alterations in the design and submitted herewith for perusal along with the original plan.

As regards funds required for the construction of the building I may state that out of the subscription amount of Rs 25000/-, a sum of Rs 15,000/- has already been collected and deposited in the Savings Bank and the balance is expected to be collected when

When the work is put in hand arrangements have been made to start the work according to the design now submitted. I therefore request that sanction of Government may be kindly accorded to the payment of the contribution of Rs. 600/- provided in the current years budget of the

Tumkur Municipality

4) It is proposed to call for tenders at once and start the building, as the public who have come forward with their subscriptions liberally in view of the prospect of a public hall being constructed at the District Head Quarter, are very keen about it.

I have the honour to be,
Sir

ul 297-12/17

To

D. M. Narasimha Rao, Esq., B.A., B.L.,

Offg. Secretary to the Government of His Highness the

Maharaja of Mysore, General & Revenue Departments.

Sir,

In reply to your letter No. 588/ML. 297-12-6 dated 13th July 1914 *Ca* regarding the construction of a public hall at Tumkur, I have the honour to state that the subject was again placed before the Tumkur Municipal Council and their resolution in the matter is enclosed for perusal.

2. The Municipal Council have accepted the design prepared by Mr. Lakshminarasappa with the modifications that the four new rooms shown in red in the plan may be added to the building, the width of the rooms being 12 ft. instead of $10'-4\frac{1}{2}"$ and that instead of the partition wall at one extremity of the hall, an arch may be put up with a moveable wooden screen. I request that necessary alterations in the plan and estimate as desired by the Municipal Council may be kindly caused to be made and the same sent to this Office for starting the work early.

3. With reference to para 2 of the letter under reply, I beg to state that the Municipal Council have resolved that a grant of Rs. 6,000/- is reasonable in view of the fact that additional accommodation has to be provided in the building for the location of the Municipal Office. At present the Municipality has no suitable building wherein to hold its Office and the non-Official Vice-President newly appointed for the Municipality is much inconvenienced for want of a suitable room to hold his Office. Instead of constructing a separate building for the Municipal Office, the Municipal Council thought it suitable to locate the office in the rooms to be attached to the public hall by paying reasonable contribution towards the cost of its construction. For these reasons, I agree in the opinion of the Municipal Council and I request that sanction of Government may be kindly

-2-

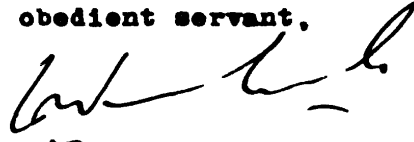

accorded to grant a contribution of Rs. 6,000/- towards the cost of the building and to the payment of the amount from the closing balance of the Municipality, as no provision is made therefor in the current year's budget.

The design prepared by Mr. Lakshminarasappa is herewith returned.

I have the honour to be,

Sir,

Your most obedient servant,

Deputy Commissioner

6. " Nylarappa

Read General and Revenue Secretary's letter No. 588/M1 297-12-6 dated 13th July 1914 regarding the design to be adopted for the Public Hall and the contribution to be paid by the Municipality towards the cost of the building.

Resolved that the design prepared by Mr. Lakshminarappa be adopted subject to the undermentioned additions and alterations:-

1. An arch may be put up with a moveable screen instead of the partition wall in the hall so that the whole area may be used as a hall as occasion arises.
2. The four rooms shown in the plan by the Chief Engineer are necessary and may be added on to the building; the width of the rooms should be 12 feet instead of 10ft. 4 1/2".

Government be requested to send the estimate and the plan revised in the light of the above suggestions to enable the building committee to start the work early.

As regards the Municipal grant In view of the fact that additional rooms have to be provided in the building to locate the Municipal Office as well as to accommodate the non-official Vice President newly appointed to Municipality who is at present inconvenienced for want of a suitable room to hold his Office, it is but fair that the Municipality should pay 1/4 of the cost of the building or at least Rs. 6000/- as originally proposed by the Council. The building committee has already collected Rs. 15,000/- and has taken steps to raise a further sum of Rs. 9,000/- by subscriptions. Government be therefore requested to sanction the payment of Rs. 6,000/- as the Municipal grant from the closing balance of the Municipality as no provision is made therefor in the current year's budget.

2.

With reference to your letter no 3986/MC
7-12 dated 16th November 1914 forwarding
consideration of the Municipal School, a
2nd plan and estimate amounting to
36 400/- for constructing a Public Hall
Tumkur, I have the honor to state that
was the original intention of the Town
all Committee to have a large building
hall, besides serving as a Town Hall,
could also be used as a theatre. and
was with this idea that the plan and

Received

General No 396
No.

Enclosure No 022

Reports on the Town Hall

Construction at Tamhar;

56

estimate already submitted to Government,
was prepared, the Committee hoping to
collect by private subscriptions, the
excess over Rs 6000/- which the Municipal
has agreed to contribute

On receipt, however of your letter
under acknowledgement, the matter was again
considered by the Committee and in view
of the present unfavourable seasonal condi-
tions and the consequent difficulty
of raising any more money by private
subscriptions, it was decided to have the
plan & estimate revised so as to reduce
the cost of the building to the amount
now available with the Committee

In accordance with the wish of the
opinion of the Committee, I consulted the
Deputy Chief Engineer, Rao Bahadur
Mr K. Krishna Sengupta, and he was
kind enough to have the design of the
building modified & the estimate
revised so as to bring it down to Rs 20,000/-
The plan and estimate as revised
(by

By Rao Bahadur Mr. Krishna Srinivas have
been approved by the Town Hall Committee
as also by the Municipal Council of Tumkur

As regards the funds required for
the construction of the building, a sum of
Rs 14,000/- having been collected from ^{Rs 15,000/}
private subscriptions and deposited in the ^{mentioned}
Savings Bank the Municipal Council of ^{in Rs 5}
Tumkur have resolved (note copy of the
resolution herewith attached) to contribute
the balance of Rs 6,000 required for the
building, from their funds

Considering that the Town Hall, besides
being an ornament to the Town which is
growing in importance, will accommodate
the Municipal office and will save a great
deal of expense in holding public meetings
locating a free library other public objects

I think that the sum of Rs 6,000/- proposed
to be contributed by the Municipality is not
too much for it to pay from its funds towards
the building

60

I therefore request that sanction of Government
may be kindly accorded to the proposal
of the Municipal Committee and to the necessary
provision being made in accordance
therein in the Budget of the Municipality
for the ensuing year.

I have the honor to be,

Sir

Your most obedient servant

M. S. Chatterjee

Deputy Commissioner President

Municipal Board Jaipur D.

VII

Read letter dated 15th January 1915 from
the Dy. Chief Engineer forwarding plan
& revised estimate for constructing a
Town Hall at Tumkur for Rs 19650/-

Resolved that as already decided at the
Board's meeting dated 3rd August 1914
the Government be requested to sanction
the payment of a contribution of Rs 6000/-
from the Municipality for the Town Hall;
Considering that the Town Hall besides
being an ornament to the Town will
accommodate the Municipal office,
the Board consider that the proposed
contribution is not too much for it

Office of the Deputy Commissioner,

Tumkur District,

Dated, Tumkur, the 23rd February 1915.

1/1
Jan 26/15

Dear Sir,

I am in receipt of your D O. No. 6330/MI 297 -12 of the 16th instant anent the construction of a Town Hall at Tumkur. Out of the total amount collected from private subscriptions, Rs.14,452 is in the Government Savings Bank and Rs.500 is deposited in the Co-operative Society, Tumkur - making a total of Rs. 14,952.

Y. 220 an luro?
1/1
Jan 26/15

2. The original plan and estimate which had been given to Ran Bahadur Mr. K. Krishna Iyengar, Deputy Chief Engineer, have not been returned to this office I would request that the same may be kindly obtained from him. Copies of the modified ^X plan and estimate, as approved by him, are sent separately by this day's post.

3. Though the estimate as now proposed is for Rs.19,650, it is ascertained that in the actual working

66

working of it, the amount is likely to be exceeded
With a view to provide for such excess and also to meet
the cost of preparation of the ground and other inci-
dental charges, it is considered necessary to have an
extra sum of about Rs 1,000 in addition to the estimate
amount It is with this object that a sum of Rs 6,000
has been applied for from the Municipality to supple -
ment the amount of Rs 14,952 obtained from public sub-
scriptions

Yours Sincerely

Kul n v
